About the C|Suites Executive Offices:

C|Suites Executive Offices announces the arrival of several new tenants at Creekside. The company has doubled its client list since Kandace Watkins took over as Business Manager late last year.

The most recent additions include the Gahanna Area Chamber of Commerce, The Standard Insurance Company, Fran Dennis/The Dennis Group, and Moments Matter.

"C|Suites is the best kept secret of Central Ohio," said Watkins. "We are aggressively targeting small and medium-sized businesses that want a central location, that desire sophisticated and comfortable surroundings, and that can benefit from a "back office" business management team that will look out for their best interest."

C|Suites offers virtual and office packages that can be tailored to fit the specific requirements of each client. They offer the option of unfurnished executive offices if a client would like to provide their own furniture and equipment. C|Suites Executive Offices are designed with the needs of business owners and entrepreneurs in mind.

C|Suites provides an affordable and convenient location for any business – with easy access to I-670, I-270, Port Columbus International and downtown Columbus.

Many businesses are choosing Executive Offices instead of conventional office space in order to benefit from the leasing flexibility and time/cost savings it provides. C|Suites is unique in the industry with its superior furnishings, quality environment, inclusive amenities and outstanding services provided by our highly trained professional staff at competitive prices. This exceptional combination proves effective as it assists our clients and allows them to fully focus on their business.

Watkins said, “We provide a full range of Executive Offices which enable our clients to quickly establish themselves in a new office location, adapt more effectively and operate more efficiently by using centralized meeting rooms, reception and administrative services. All of our Executive Serviced Office space are fully furnished, equipped with IP Cisco telephones and Broadband high speed wireless connectivity and supported by highly trained, professional personnel.”
